

Kemet Portable Hand Single Lap Kits

Save your company time and money!

Leaking pumps, valves and seals cause many problems, leading to wastage, poor performance, and unnecessary costs and, in some cases, hazards to health.

The use of Kemet Portable Lapping Kits, single or 3 lap, reduce expensive down-time by allowing refurbishment to be carried out ON SITE; components lapped and/or polished by hand in minutes rather than hours.

The systems are ideal for components manufactured from ceramics, tungsten carbide, stellite, brass, steel, silicon carbide, Ni-resist etc. Kemet Portable Hand Lapping Kits are also ideally suitable for low volume production, when optimum surface finish is required, and where it is not economical to purchase a lapping or polishing machine

Contents, TYPE L for lapping:

- Kemet Iron Lap Plate (for lapping) 348mm dia. with concentric grooving, on an aluminium backing plate.
- 1 x 10g Kemet Diamond Compound Application Stick - 25 Micron.
- 1 x Kemet OS Lubricating Fluid
- 1 x Polished Wooden Box with Operating Instructions

Contents, TYPE P for polishing:

- Kemet XP Lap Plate (for polishing) 348mm dia. with concentric grooving, on an aluminium backing plate.
- 1 x 10g Kemet Diamond Compound Application Stick - 3 Micron.
- 1 x Kemet OS Lubricating Fluid
- 1 x Polished Wooden Box with Operating Instructions

Kemet

Portable Hand 3 Lap Kit

The Portable Hand 3 Lap Kit is admirably suited for ON SITE refurbishment.

It contains three lapping plates, each with its own grade of Kemet Diamond Compound.

This makes it possible to process components, e.g. valves and seals, in three stages from lapping through to polishing. Each lapping plate is backed with anti-slip matting.

Kemet Portable Hand 3 Lap Kit for Lapping and Polishing

Contents

- Kemet Iron Lap Plate (for lapping), 150mm dia., on an aluminium backing plate with non-skid facings.
- Kemet XP Lap Plate (for lapping), 150mm dia., on an aluminium backing plate with non-skid facings.
- Kemet Tin Lap Plate (for polishing), 150mm dia., on an aluminium backing plate with non-skid facings.
- 1 x 10g Kemet Diamond Compound Application Stick - 25 Micron.
- 1 x 10g Kemet Diamond Compound Application Stick - 8 Micron.
- 1 x 10g Kemet Diamond Compound Application Stick - 3 Micron.
- 1 x Kemet OS Lubricating Fluid.
- 1 x Polished Wooden Box with Operating Instructions.

When used frequently the plates for the Portable Hand Lapping Kits will eventually become out of flat. They can be relapped to flatness on your own lapping machines using 1800 grit lapping powder. If no machine is available we will gladly quote you for relapping.
